OTHERS DULL AND WEAK

A Further Sharp Decline in Chicago Gas-Silver Drops and Recovers.

WALL STREET, FRIDAY, Jan. 23-6 P. M.

Traders began to sell the market to-day and

They confined themselves to half a dozen stocks Aside from these the dulness was unbroken and

the declines only fractional. Chicago Gas was again the most active and is down 212 further. President Billings' iteration that he directors are not going to trouble them-

selves about dividends until the status of the property shall be permanently adjusted was a bear point as viewed by the professionals. Almost as active was Richmond Terminal, and these two stocks represent a third of the whole

Silver bullion certificates were more active than for a long time past and fluctuated pretty sharply, falling % and rallying 1, to 104, at which they closed, a net rise of 14. The trusts were all dull and sagged a fraction. Money was dirt cheap, storting exchange was reduced 14 cent and the city banks cancelled \$200,000 Clearing House Certificator, leaving \$1,085,000 now outstanding.

Sales at the Board amounted to 153, 226 shares (silver bullion certificates not included), against 108,469 yesterday and 92,966 on Wednesday. Follow-

WEAREN—OTHER MARKETS.

Corron—The transactions losped up to a liberal aggregate again to-day after the lull of yesterday, but the course of the market was downward, prices falling 5 to 6 points. Liverpool was 1 to 2 points lower, with spot cotton pressed for sale, and the close was barely steady after sales of 7,000 balos. In Manchester pares were in boyers favor and cloths were quiet. In New Orleans cotions were 3 to 6 points lower, closing ouiset and steady buyers favor and cloths were quist. In New Orleans options were 3 to 3 points lower, closing quiet and stoady after sales of 42,500 beies. Here on the spot the market was duil and unchanged, middling uplands remaining at 1950, with sales of 10,70 bales for home consumption. Its Southern spot markets were generally quiet. New Orleans, failwesten, Savannah and Norfolk were 1-16c, lower. Memphis was easy and Augusta partially spot lower. New Orleans, sold 1,500 bales, the apports from the ports to-day were 4,210 bales to the Continent and 13,702 bales to the Continent, including France, and 125,703 bales to the Continent and 13,700 bales, the strength of the total for the week of 40,011 bales to the Continent, including France, and 125,700 bales, which is of course not a bad showing. The receipts at the interfor towns for the week were 5,835 bales, agains 152,288 bales last were and 41,710 bales this work last year. The interfor stocks show a loss for the week of 25,400 bales, coaving a total of 416,123 bales, agains 440,565 a week ago and 322,205 bales at this time last year. Henry flents & Co. also sold freely. Greel and German houses were soliers. The buying scened to be largely for short account and was wisely scattered. The interior receipts for the week were about 0.070 bales larger than inst week and 16,000 bales more than for the corresponding week last year. The interior stocks lost only 25,400 bales, whichwould leave the sugregate interior supply about 85,000 bales more shan a year ago. The plantation movement for the past week has approximated 145,000 bales, against 143,000 for the same week last year. The receipts at the ports for the week show a gain ever those of this week and 16,000 bales and a gain over those of this week last year of 35,000 bales. On the other hand, the decline of late has been so marked that bears are tempted to take their profits, and this fact tended to prevent any sharp break to-day. The experts for the week are liberal and the stock in Liverpool is 80,000 bales larger than at this time in 1889.

December... The buils here expected the European markets to do better toan they did to day, but the hears were still covering to some extent, and I hear that the old buil clique were large buyers of the near months. Europe bought spring and symmer months to a moderate extent. The result was a small advance for the day, though the Hearlith receipts were a trifle larger than a yeer ago and the warehouse deliveries showed some diminution, while the trade on the spot was less active. The bears show a disposition to cover on every sign of weakness.

later Liverpool cables were firmer and some months advanced jdd. There was also some Northwesters buying and some covering by the Southwest. A Cincinnal statistical seer declared that the available snapply of wheat for export in this country is only 22,000,000 bushels, of which but 5,000,000 bushels are on the Atlantic coast. Then the exports of wheat yesterday amounting to 56,254 bushels, not to mention 0,700 buils and 21,500 sucks of floor, naturally had a more or less strengthening effect. The withdrawals at Chiesgo from store were 87,100 bushels. Further, the trading was larger here and in Chiesgo with later reports of unfavorable weather in some parts of the West. Trices closed higher. Corn was firmer in the later, trading partly in sympathy with wheat. Cash corn was offered very sparingly. The receipts though a little larger were still relatively light, and this fact, together with some demand to covar and very fair exports, contributed to the increased strength particularly noticeable toward the close of the session.

REAL ESTATE OPERATIONS.

MR. ROTHSCHILD'S WEST SIDE PURCHASES-A SIGNIFICANT ASTOR LEASE.

While sales at auction, especially those decreed under judgments of foreclosure, were being adjourned during the past two days, many private negotiations have been perfected, owing to the ease of the money market, as has been explained in these columns.

These negotiations were with merchants whose surplus, gained in legitimate trade, sought investment in the purchase of realty. The HERALD reported a few days ago the purchase at private contract by Jacob Rothschild, the ribbon man, of Fourteenth street, of the southwest corner of Central Park West (Eighth avenue) and Seventy-second street, opposite the well known Dakota apartment house, for \$225,000. It became known yesterday that this Mr. Rothschild had purchased not only two adjacent lots at \$25,000 and \$26,000 each, on the Eighth avenue site, but also the corner northwest of Seventy-first street and Central Park Wast for about \$100,000. This last purchase comprises the vacant land as described by the following diagram:-

All of these lots included a frontage of 50 feet on the avenue by 150 feet on Seventy-first kirect, thus giving Mr. Rothschild a possession of twelve lots, eight on the avenue and four on each street, at a total cost of about \$375,000. I understood yesterday that Mr. Rothschild will erect on these premises a very large hotel, as he now has an entire frontage on Central Park West.

Steady work as to great leases, especially in "the Tenderioin" section, is going on apace. The William Astor estate has just leased the first floor and basement and three rear iofts of building No. 44 Union square to Devlin & Co, for five years, beginning May 1, 1891, at an annual rental of \$21,000. The Devlins will remove, it is stated, from their present quarters on February 1, and will during the intervening three months occupy part of the building on the southeast corner of Broadway and Twelfth street.

ELECTRIC LAMPS ABOVE THE HARLEM

The Gas Commission vesterday decided that it would be wise to have electric lights in the upper district in certain places, and agreed to have 108 additional electric lamps there. A contract was also awarded for over two hundred additional electric lamps in this city, much to the dismay of Superintendent McCormack, who tenaciously held out for his pet gas lamps.

TO USE THE TROLLEY SYSTEM.

The Board of Electrical Control yesterday conrisania and Fordham Company to adopt the trolley toverhead) electric system as a motive power and gave its consent to the "Huckloberry Boad."
Mayor Grant, in voting in the affirmative, said he had examined the trolley system in Boston and elsewhere and concluded that, while he might to bject to the use of the same in the city, he thought it would prove beneficial in the annexed district.

BUSINESS EMBARRASSMENTS.

G. G. Hallett, wholesale dealer in stoves at No. 238 & Warren Company, of Troy, which is said to be his largest creditor, the reported consideration being \$10,000 and the satiefaction of the company's claim against him. Mr. Hallett has been in business for more than twentyfive years. He said yesterday that he had not failed, as no judgment had been entered against him, but he had sold out to the Fuller & Warren Company, which had sat sold out to the Fuller & Warren Company, which had sat issued its claim against him. His liabilities, he thought, were levewen S30,000 and S30,001; he could not tell what his assets would amount to. It was reported in the trade that he proposes to pay creditors thirty three cents on the dollar, but Mr. Hallest said he had made no proposition yet, as he could not tell what he could pay the eraditors until he had got in everything. Ureditors, it is said, are very kindly disposed toward Mr. Ballest. He generally carried a stock of about \$85,000.

Axecutions and attachments a ggregating about \$1,000 have been issued to the Sheriff against John Greiner, manufacturer of ferniture as Nos. 435 and 435 West Forty-second street. He began business in November, 1888, on a small scale.

The Shuriff has received executions for \$3,228 against William F. Geissel, wholessie dealer in meat, of West Rightieth street, hear Amsterdam avenue. In favor of H. Geissel, The business was started many years age by Frederick G. Geissel, his father, at washington Market, and after the sunforts death. In March, 1880, was carried on by William F. A NEW RULING BY THE TREASURY DEPARTMENT

AS TO THEATRICAL COSTUMES. Special Treasury Agent Wilbur, of the New York Custom House, has contended that the decision which permitted theatrical costumes and scenery to be imported by foreign actors and managers free of duty on the ground that they were "tools of trade," was an injustice in its practical operation. rive to-morrow in the French steamer for Sarah

rive to-morrow in the French steamer for Sarah Bernhardt's company of Farisian artists and on the next French steamer still another consignment will come for the same company, which is to open in this country next Tuesday.

Mr. Wilbur wrote to Chief Special Agent Tingle at Washington, suggesting that the personal and professional costumes of The Bernhardt and of all her company should be admitted free as "tools of trade," but that scenery, properties and coatumes for the ballet and other performances—in brief, all properties evidently belonging to the management—should be charged duty.

Mr. Tingle agreed in this view and so did the Treasury Department, and Assistant Secretary Spaulding yesterday wrote to Collector Erhardt authorizing the collection of duties on theatrical importations hereafter on the basis above set forth.

Mr. Abbey will pay duties on the new theory adopted by the department, but he will pay under protest and carry the case to the courts.

NO MORE FIRES FOR PFUNDER.

William Pfunder, the boy, seventeen years old, who set fire three times to Frank Schener's butcher shop, No. 742 Second avenue, "just to see the engines work," was sent to the kimira Reformatory yesterday by Judge Cowing in the Court of Gen-eral Sessions.

For years the boy has haunted engine houses, and it was supposed he was insane until the city physician pronounced him merely stupid.
